

# Files Exchanging Between AWS EC2 and Local Machine

1. Open your command prompt
2. cd /path/to/your\_key.pem/
3. `scp -i "<your_key.pem>" /path/local/file/to/copy ec2-user@ec2-xx-xx-xx-xx.compute-1.amazonaws.com:/path/to/file`

**Note:** for Windows machine = C:\path\local\file\to\copy

Windows PowerShell

```
PS C:\Users\90544\Desktop\pem> scp -i ".\E2012_murat_cw.pem" C:\Users\90544\Desktop\test\test.txt ec2-user@ec2-35-174-176-175.compute-1.amazonaws.com:/home/ec2-user/
```

1. Open your command prompt
2. cd /path/to/your\_key.pem/
3. `scp -i "<your_key.pem>" ec2-user@ec2-xx-xx-xxx-xxx.compute-1.amazonaws.com:path/to/file /path/local/file/to/copy`

**Note:** for Windows machine = C:\path\local\file\to\copy

Windows PowerShell

```
PS C:\Users\90544> cd .\Desktop\pem\  
PS C:\Users\90544\Desktop\pem> scp -i ".\E2012_murat_cw.pem" ec2-user@ec2-35-174-176-175.compute-1.amazonaws.com:/home/ec2-user/test2.  
txt C:\Users\90544\Desktop\test\
```
